Cooking Instructions

1. Preheat oven before baking.
2. Remove fully frozen pizza from all packaging and cardboard.
3. Place directly on middle oven rack (about 8 inches from bottom of oven).
4. For a softer crust, preheat and bake at 400° F for 23-30 minutes. Pizza should be placed on cookie sheet during baking.
5. For a crispier crust, preheat and bake at 425° F for 19-26 minutes. Pizza should be placed directly on rack during baking.

It may require some experimentation to determine the best method for your oven. Thoroughly cook before eating or serving. For food safety and quality, cook before eating to an internal temperature of 165F.
